you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system. In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

SISTERS OF CHARITY.

Mr. William F. Carne, in Knighthood, gives the following interesting account of the Alexandria Sisters of Charity:

"The memory of Mother Seton's Sisters of Charity, whose little black bonnets were familiar objects on the Alexandria streets in the decade from 1830 to 1840, is fading out; and it is a labor of love on the part of the God-child of one of them to tell to the younger generation the story of their useful life here.

"About 1830 the brick church facing Royal street, by which Father Joseph Fairclough had replaced the frame chapel bought from the Methodist facing the alley, was completed, and the pastor had a small but comfortable home. Just then came Father John Smith, S. J., who with indomitable energy strove to expand Catholic activites. He sought at once to establish Catholic schools and an orphan asylum under the shadow of the church.

"Fortunately, real estate in the church neighborhood was then available for the purpose. A vacant lot on the northwest corner of Duke and Royal streets, now Lambert's garden, was bought as a site for the male school, and Bushby's house on the southwest corner of Fairfax and Duke streets for the female school. This house, which still stands, comes down from the period of the revolution. It was built by William Bushby, who once owned all the ground on the north side of Duke, from Royal to Fairfax streets. On his death his widow moved to Washington, and in 1817 sold Bushby's corner to Jonathan Roberts for $1,800. It proved poor property for Roberts, and became scarcely more than a rookery when Rev. James Hickey, of Emmettsburg, Md., bought it in 1832 for $1,200 for the Sisters of Charity of St. Joseph. The Sisters came to Alexandria on a popular tide. The liberals among non-Catholics gave them a warm reception. The Howard Association got up concerts for their benefit. The Masons of Alexandria-Washington Lodge tendered them free their lodge room to hold a fair, which was one of the events of the day, and for a week the lodge room was occupied by the sisters and their helpers. The old building was remodeled and fitted for their purpose, and a frame school house built on Fairfax street at the south end of their lot. The best people sent their daughters to be under their tuition and everything promised success. Meanwhile, in 1833, the Jesuits built the old St. John's Academy at the northwest corner of Duke and Royal streets, and sent teachers there and both schools flourished for awhile.

"But Catholic success awakened the fervid opposition of bigotry. A Protestant orphan asylum was established and means taken to cut off attendance at the Catholic schools. The sisters found opportunities for wider usefulness elsewhere, and in 1840 left Alexandria. Dr. F. J. Murphy purchased their property and converted their convent into a dwelling, where he lived until a few years before his death. It was long his hope to bring back the Sisters and establish a hospital there, but the hope was in vain. The male school, too, went down, and in 1846 the school-house stood untenanted except by rats. Then Brother R. L. Carne, now of Newport News Council, took the work of renewing St. John's Academy, and made it one of the institutions of the city, but that, too has passed away.

"Father Smith and the Sisters have been long beyond the grave. He died of ship fever while ministering to the immigrants at New York. Sister Mary Agnes poured out her mortal life at the feet of her Master, aiding and consoling the dying of yellow fever at New Orleans. Graves far apart on earth shine to heaven with one radiance."

Predicament of Female Bathers.

Half a dozen girls, daughters of prominent Fort Dodge, Iowa, families, camping on the banks of the Des Moines river, dared each other to go in swimming last evening. When all were in the water they looked toward the shore and were thunderstruck to see a tramp gathering up their clothes in a pile. This done, he sat down upon them and began to smoke. For more than a quarter of an hour he pulled at his old black pipe contentedly, while the girls peeped at him, with their heads just above water. Not until a company of young men, coming to visit the girls in camp, were heard in the distance did the hobo go away. The young men arrived. The girls, with the water half choking them as they spoke, told what had happened. The young men declared they would find the brute and lynch him. But they did neither. When the searchers returned to camp the girls were dressed and anxiously waiting to receive company.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored

LION COFFEE, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee.

Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3 DONT'S
- Don't boil it too long.
- Don't let it stand more than ten minutes before serving.
- Don't use water that has been boiled before.

TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)

(Lion-head on every package.)

(Save these Lion-heads for valuable premiums.)

AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, SEP. 6, 1905.

A PROBLEM that is at present holding the attention of both educators and parents in many of the cities, was discussed by Prof. Charles A. McMurray, of the Northern Illinois Normal School, who spoke of the "Course of Study in the Common Schools" at the general meeting of the Baltimore county, Md., Teachers' Institute held yesterday. This address dealt with the idea that the present course of study has been greatly enlarged by the introduction of new studies—nature studies, physical training, manual training and others, and also by the enlargement of the old studies, such as literature and history, which have had entirely new branches added to them. Dr. McMurray said that this increase has resulted in the course of study being overcrowded, a condition for which nobody is to blame, but which is the result of an effort to make the schools an essential part of our modern civilization. It is a condition, however, which presents a problem, the speaker said, whether to go back to the three R's or to keep all the new things. One class of educators advocates dropping out the new things, while the other class considers the new things more important. Dr. McMurray advised retaining all of what he termed the "real riches" of the course of study of both new and old, and having the course simplified and reorganized, which, he said, could be done in three ways. He said:

The first way in which this change could be effected was by dropping from all studies a great deal of useless material that has lost value. For instance, one-third of the old-time topics of arithmetic and grammar, which have no application or interest at present, could be dispensed with, and also following the same method of elimination in the new studies—nature study and manual training and others—which have elements not essential. The second method mentioned was the incorporation of minor studies into larger and more important ones; for instance, the incorporation of civics into history, physiology, temperance and physical training into an elementary science, making these at present separate studies merely parts of the more important studies and reducing the number of studies to seven or eight, instead of 14. The third method to reduce this overcrowded condition of studies was the selection of a few great central topics of the important studies for treatment, instead of the multitude of little ones which at present are responsible for much waste of time on the part of the student and the teacher.

As a result of the use of these three methods of simplication, Dr. McMurray believes, the problem of the overcrowded course of studies would be solved and much time saved.

WHAT is thought of a seat in the U. S. Senate by some republican politicians was shown by the following statement made by Mr. J. Edward Addicks of Delaware yesterday:

"I am 64 years old, and the victim of a fictitious reputation given me by the newspapers; but I am going to the United States Senate from Delaware. When Allee went to the Senate, he went with my tag on him. Every man in the Senate knew he was there merely as a filler. I gave Allee wealth, power and position, and now he exposes himself for the traitor that he is."

And the worse part of the whole business is that it is all too true. Of the Delaware senatorship matter the Philadelphia Record says:

> Addicks may have a good deal of power for mischief yet, but the fact that Allee's desertion of him was not an individual matter, but that the Senator spoke for the leaders of the union faction, and that the terms of a compromise between them and the regulars are already outlined, make his cause utterly hopeless. Money has been used in Senatorial elections, but a direct purchase was never before attempted, unless in one of the new States in the mining region, and Addicks' success would have been disastrous to honest politics.

DR. THOMAS J. MAYS, of Philadelphia, writing in the current New York and Philadelphia Medical Journal, ridicules the theory advanced by Dr. J. O. Cobb, widely circulated, that the house fly is a factor in the spread of tuberculosis. Dr. Mays complains that the public pulse has been rendered unduly tense by various sensational reports concerning the contagious nature of consumption, so that the sufferers of this disease are in sad plight. He says that not the slightest evidence has been deduced to prove that food tasted by flys which have previously fed upon the sputum of consumptives becomes a vehicle for transmitting the disease when taken into the human stomach. Dr. Mays in a letter to the press also asserts that it is far from being established scientifically that the main source of transmitting the yellow fever is through the bite of a mosquito. The mosquito theory, it has been learned was held by the ancients two thousand years ago, but was abandoned by them for want of positive proof of its correctness.

SECRETARY of the Navy Bonaparte, not satisfied with the findings of the Bennington court of inquiry, has ordered Commander Lucien Young, of the Bennington, to be court-martialed, as well as Ensign Wade. This action, it is currently reported, was brought about by Gen. Wood who has a grievance against Commander Young growing out of the Havana gambling house scandals and the former's acceptance of a silver service from the "house," concerning which the women of the American garrison there "said things." Truly this is becoming a petticoat government.

A DISPATCH from Odessa says nothing is known there, officially or otherwise, of the reported Jewish massacres at Gidji, Bessarabia. Inquiry in Jewish circles elicited denials. If such a thing had occurred the Odessa Jews undoubtedly would have been informed. The massacre stories in Russia have long ago been discounted by all intelligent people in this country.

IT IS SAID that a republican newspaper will probably be established in Richmond within the next few weeks. If it is no more successful from a monetary standpoint and does no more good from a political view point than the one started in Roanoke two years ago it might just as well die "abornin."

VACATION days will soon be numbered among the fond memories of the past. The schools are alrerdy beginning to open and during the month the sessions of all of them will be resumed.

STRAW hats are now in the sere and yellow.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Sept. 6.

The prospective resignation of Public Printer Frank W. Palmer at the request of President Roosevelt will be the first step in a general reorganization of the government printing office. There will probably be a special investigation of the office by order of Congress next winter, following up the inquiry into its affairs now being made by the Keep commission whose preliminary report was recently handed to the President. The fact has been pretty well established that there has been more or less mismanagement and extravagance in the conduct of the big printery. Just how much fault lies with the public printer and how much with the laws and regulations for the office laid down by Congress remains to be determined. There is no question, however, that the government, under the present regime, is paying more for its printing than it would have to should the work be done by private concerns under contract. It is believed that the expenses can be materially reduced without impairing the efficiency of the work. The announcement that the President has decided to ask for Public Printer Palmer's resignation was not at all surprising here. Such action has been expected for some time, no secret having been made of the fact that the President has been looking about for a competent man to fill the place. Thus far he has not succeeded, the salary ($4,500) apparently being insufficient to tempt those whose experience in the printing business and executive ability qualify them for the post. Mr. Palmer, who is 78 years of age, had allowed Foreman Ricketts to assume largely the active management of the office. The two were the best of friends until the recent difficulty over the purchase by Palmer's order of 72 Lanston monotype machines came up. Ricketts held that the purchase was unnecessary and so testified before the Keep commission. It was on account of this testimony that Palmer asked for Ricketts' resignation. The President took prompt action as soon as he heard of the facts in the case, deciding that Mr. Palmer's course was entirely unwarranted, and that under no circumstances could Ricketts testimony be classed as an act of "insubordination," such as Palmer termed it. Ricketts' friends are now predicting that instead of being ousted from the government service he will actually become Palmer's successor as public printer.

Public Printer Palmer has given Foremen Ricketts and Hay until Saturday morning at 10 o'clock to present their resignations. If the resignations are not forthcoming then he has informed them they will be removed for "official misconduct." The extension of the time in which to present the resignations was made yesterday, and, it is believed, before Mr. Palmer received the request from the President for his resignation. Notification was sent to the residences of Messrs. Ricketts and Hay. They were received last night. In them the public printer recognizes them as officials in his office. It is understood that the President is considering three men for Palmers successor, Ricketts, W. S. Rossiter, of the Census Office and the third to be outside government service. Assistant Secretary of the Treasury Keep, chairman of the Keep investigating commission, returned from his vacation last night. The Keep commission had been instructed by the President to investigate the charges of insubordination brought by Public Printer Palmer against Foremen Ricketts and Hay. They had a conference this morning and it was decided to again communicate with the President before calling a meeting of the commission to take up that particular feature of the case.

United States Minister Russell, at Caracas, Venezuela, cabled the State Department this morning that the Venezuelan government has ordered that all cables stations of the French Cable Company, along the coast of Venezuela, be closed. Col. Edwards, chief of the Insular Bureau, today wired the War Deparment as follows: "Hongkong—All well. Sail today at noon for Amoy, China." This indicates that Secretary Taft's plans for a quick return to San Francisco have been altered so far as the steamship Korea's call at Amoy, China, is concerned. According to the original plans as cabled from Manila, the Korea would make a rush voyage from Hongkong to San Francisco, omitting the usual stop at Honolulu. After leaving Amoy the customary calls will be made at Shanghai and Nagasaki and then the Secretary will come straight home. It is expected that he will reach San Francisco about October 1. Miss Roosevelt and the rest of the party are now en voyage aboard the transport Logan for Tsientain.

Dr. D. E. Salmon, chief of the Bureau of Animal Industry, of the Agricultural Department, has resigned. It is persistently reported that Dr. Salmon's resignation is due to a suggestion from Oyster Bay that he had better step out. Secretary Wilson, when asked for an explanation of the resignation, pointed to his own vindication of Dr. Salmon after the recent investigation. Dr. A. D. Melvin, assistant chief, will be placed in charge of the bureau.

Now that the treaty of peace between Russia and Japan has actually been signed the authorities at the War Department have decided immediately to recall the United States military attaches with the Russian and Japanese armies in the field.

It was announced at the State Department today that this government would give up the Russian ships interned in American ports until the treaty of peace between Russia and Japan had been formally ratified by those governments and Russia had made a formal request for the vessels.

Officials of the Department of Justice are of the opinion that Attorney General Moody, admitting the right of the indicted Chicago beef packers to seek, by injunction, to stay the criminal prosecution against them, did not mean that there is any probability of the success of such a movement.

E. B. Ewing, brother-in-law of ex-Senator Cockrell, of Missouri, Interstate Commerce Commissioner committed suicide in the office of Murray's Hospital in Butte, Mont., yesterday, by shooting himself in the head. He had been in ill health, and spent several months in the Yellowstone Park, where he recently gave a worthless check on Senator Clark's bank, in Butte, in payment of his hotel bill, amounting to $125. He then went to Butte for treatment. At the hospital he was found yesterday by an attorney, who threatened prosecution on account of the check. Ewing gave the lawyer a trifle in part payment of the bill, and when the lawyer left he placed a revolver to his head and fired a bullet into his brain.

REIGN OF TERROR.

A dispatch from Baku, Trans Caucasia, says that troops, under the direction of the Governor, are acting with the utmost vigor, but they have not succeeded in restoring order, although there is rather less firing. Armed rioters yesterday attacked the oilworks in the suburbs of Balakan and after a hard fight set fire to them. Tartar bands are scouring the country, murdering and pillaging. The country is in a state of wild panic and houses and farms are being abandoned. The famine in many parts of the country renders the situation more terrible.

A dispatch from Tiflis, received says: "The whole of the southeast Caucasus is now terrorized by Tartars. Refugees are pouring into Tiflis from Baku, Elizabethpol and Shusha. According to an official estimate more than 200 houses were destroyed. Many of the Baku oilfields are in flames. Reinforcements have been sent from Tiflis. Official dispatches from Baku say that the workmen's quarter of that city was burning Monday night.

The disagreement was so intense that Mrs. Chittenden, accompanied by her two sisters, the Misses Noble, who live with her, left the house and spent the night away from home. She returned yesterday morning about 9:30 o'clock, and the shooting began. The irate husband used a double-barrelled shotgun. He fired once and the wife fled from the house into the street. Palmer Asked to Resign.

Public Printer Frank W. Palmer has been asked to resign. The President turns the tables on the head of the government Printing Office by directing that he surrender his office by September 15. This is the answer from Oyster Bay to the action of Mr. Palmer Friday in asking the resignations of Foreman of Printing Oscar J. Ricketts and L. C. Hay, a foreman of division, with whom the public printer was at odds.

Immediately after the resignations of Ricketts and Hay were asked a complete statement of their cases went forward to Oyster Bay. The President had already before him the exhaustive testimony in the Keep investigation and the report, which put him in the possession of information not only about conditions in the public printing office, but of what Foreman Ricketts' conduct has been. With the arrival of the papers, setting forth the defense, the President was able to decide very quickly about the merits of the new controversy. He was averse to recording his decision directly in the case of the two employes, leaving that with the commission which had been investigating the printing office.

As a culmination of the long and bitter fight, starting with Mr. Palmer's persistence in purchasing seventy-two Lanston typesetting machines, this forced resignation is an important feature. The controversy has drifted away from the merits of the typesetting machines entirely, and on Mr. Palmer's part, became a personal matter between him and those of his subordinates who could not accept his views that the Lanston machines were desirable, and were honest enough to tell the Keep commission of their opinions.

Another Miners' Strike.

John Mitchell, president of the United Mineworkers of America, was in Philadelphia yesterday, in his capacity as vice president of the American Federation of Labor, to join with First Vice President Duncan, of the Federation, and others in the settlement of a dispute involving typesetters and printers.

It can be stated on the highest authority that the convention of anthracite miners, which will draft new demands for presentation to the coal companies on the expiration of the strike commission's award, on April 1 next, will be held in Shamokin between December 5 and 10. It is learned today that the December convention at Shamokin will make the following demands:

First. A recognition of the miners' union by the coal operators, the recognition to take the form of a signed agreement.

Second. The substitution of an eight-hour workday for the nine-hour workday awarded by the strike commission, which is now in force throughout the hard-coal fields.

Third. An increase in pay over the minimum wages now paid to men and boys who are not contract miners, but are generally classed as unskilled labor.

Fourth. A uniform scale of wages for workers not actually miners at all collieries.

The contract miners number about 30,000 in the total of 140,000 hard-coal workers in and about the mines. If the Shamokin convention obtains concessions as outlined in the foregoing schedule of demands it would mean large additional expenditure by the coal companies annually in increased wages.

At Virginia Beach Monday there was witnessed a daring feat, participated in by six young ladies well known in society in Norfolk, Washington, D. C, and New York, who contested in a swimming match when the breakers were angry and rolling high and the rain poured in torrents.

They were Misses Elizabeth and Mary Townsend, of Norfolk; Mrs. Gouveneur Paulding, of Norfolk and New York; Miss White, of Portsmouth; Miss Maury and Miss Victoria Parks of Washington.

William O'Keefe, of Virginia Beach, arranged for a swimming contest among the young ladies now at that resort, offering three prizes. There has been considerable rivalry among the fair swimmers and all were anxious to test their skill.

At the time set for the event a pouring rain came down and the sea was very rough. Nothing daunted, the young women ran gayly down the boardwalk and were taken into a lifeboat manned by Messrs. Merrit and Richard Cooks, Walter Irving and Thomas Tanner. Mr. O'Keefe accompanied the party and swam with the contestants. The course was to have been one-third of a mile, but owing to the vicious condition of the sea a shorter distance was agreed upon. Considering the high waves, wind and rain, however, the distance traversed equaled at least a third of a mile.

At the starting point the boat heaved and rocked so badly that it was impossible to get the participants in the water at the same time and they jumped over the side, diving one after another. Once in the water the young women started out bravely for shore, but were pitched and tossed until only a bobbing head could be seen now and then. From the shore it was impossible for any of them to be recognized, but Mr. O'Keefe gave an account of the race, which resulted in Miss Elizabeth Townsend being declared the winner, with Mrs. Paulding second and Miss Mary Townsend third.

The participants were exhausted when they reached the end of the course and waded ashore breathless.

The Sick Poor.

Mayor Paff last night took up the complaints of certain citizens that charity patients have not been receiving proper attention from the physicians to the poor. Dr. E. A. Gorman, one of the physicians to the poor, was present, and the two officials conferred as to the needs of the city in this connection. As to the one specific charge, Dr. Gorman explained that the patient was not in his district and, he had been informed, was not within the corporate limits of the city. The mayor was inclined to think that the man's residence was in the city limits, but he agreed with Dr. Gorman that the latter was not to blame for declining to attend the patient. Dr. Gorman stated that for some time he had been compelled to practically attend all the city's sick poor, and that lately it had been impossible for him to do so and give his private practice the attention it demanded. The matter was left open.

In a conversation after his conference with Dr. Gorman, Mayor Paff stated that he was in favor of a law providing for the election of one physician to act as physician to the poor, health office and coroner, the salary to be made large enough to furnish an inducement. At present one of the physicians to the poor acts as health officer, and receives a salary of $300 per annum. The other physician receives a salary of $200.

This division has frequently raised a question as to who should respond to emergency calls, and at times there has been considerable complaint on the ground that the services of a physician could not be secured at police headquarters when they were needed. Mayor Paff stated that it would be his object to make some arrangement which would eliminate all ground for complaint, and intimated that he would prepare an ordinance which will clearly define the duties of the physician or physicians to the poor so that there would be no occasion for misunderstanding in the future. The mayor also stated that he was inclined to the idea of a resident physician at the Alexandria Hospital, who, by arrangement with the hospital trustees, might be elected [illegible] charitable purpose of serving [illegible] hospital.

[illegible]

Lo[illegible] two soldiers [illegible] and cutting [illegible] weeks ago, in a house conducted by [illegible] Baker, on north Lee street, were arraigned in the Police Court this morning.

Mankin in his statement said that the two soldiers when they entered the house began to [illegible] everybody about the premises, and were soon engaged in an angry colloquy with him. He then told them he would not run from them, when Sykes struck him brass knuckles. Mankin returned the blow, and one of the women ran in between him and his antagonist. He was afterwards stabbed in the back and cut in various places by the soldiers, until he was forced to tell them he had enough. One was using his fist upon him and the other a knife.

The evidence of several witnesses was heard, the substance of which was published at the time of the occurrence. One, however, testified that Mankin had picked up a lamp to hurl at the soldiers.

Sykes in his statement said he and Burke were on north Lee street on the night of the trouble and had arrived in front of the Baker woman's house when they were invited in by one of the women. When they entered Mankin took exception and said something to the effect that soldiers were always intruding into the house. Sykes wanted to know what Mankin had to do with them, and a war of words followed, during which unconventional terms were used and Mankin ordered the visitors to leave the place. Sykes alleged that Mankin struck him and the blow was returned, when Eva Baker appeared and attempted to stop the fight. Mankin went to another room and appeared with a lamp and the fight was renewed.

Burke's testimony was substantially the same. Justice Caton sent the prisoners on to the grand jury and recognized the witnesses for their appearance.

The jury returned a verdict of $1,000 damages, to which an appeal was noted. The plaintiff was represented by Attorneys Ma[illegible] and Moncure and the defendant company by Messrs. Moore and Caton. Others also who were witnesses in the case testified. The trouble originated last week in the Police Court after the disposition of a case, Mr. Knight claiming that it had been examined without his evidence being heard,

A Bad Fall.

After a fall of 75 feet into a cement-paved cellar yesterday Oscar Jenkins, a young house-smith, sat up and used warm language because his comrades insisted upon sending him to a hospital.

"There's nothing the matter with me," protested Jenkins. "Let me go back to work."

Apparently the only damage he had suffered from the fall was a cut on the lip. An ambulance was called and he was taken to a hospital. He walked to the ambulance, but the surgeon feared he had sustained internal injuries.

Jenkins was at work on the sixth floor of the Mechanics' Bank Building in Brooklyn when he lost his balance and pitched off a scaffold.

Miles of Grain Trains.

A dispatch from Chicago says that railroad men estimate that it would require a solid train 11,970 miles in length to transport the grain that will be marketed this year. Minnesota and the Dakotas will send at least 190,000,000 bushels of wheat to market out of a total crop of 326,000,000 bushels. The total corn crop is conservatively estimated at 2,566,000,000 bushels, of which 786,000,000 bushels will pass over the railroads. There will be 17,000 carloads of flax and fully 125,000 carloads of oats. No account is taken of the trainloads of apples, potatoes, peaches and other fruits, or of hay and miscellaneous crops. With the crops already in sight, 100 trains of 40 cars each would be required every day in the year to clean up the work.

Cut Off Husband's Hand.

A dispatch from the City of Mexico says that tired of being beaten every day, sometimes twice a day, by her husband, Eurobio Belmonte, having vainly tried all means suggested by superstition to make the man die a natural death, and believing that the disappearance of the man's cruel hand would put an end to her sufferings, Juana Belmonte, a woman of the lower class, cut off her lover's right hand with a kitchen knife, while he was in a drunken sleep, after having beaten her for the last time. Juana is not an expert surgeon, and the operation, according to the surgeons of the hospital, was so badly done that the man will have to undergo a new one.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead. of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia. Billiousness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 50c a bottle.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Gibson & Timberman and W. F. Creighton & Co.

A Laxative Cough Syrup.

"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels —expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W.
